ABOUT ME

I am a young, enthusiastic and creative new media designer with 5 years of industry experience. I take pride in crafting functional and engaging websites from the conceptual stage through to implementation.

EXPERIENCE

Candi (London) **November 2010 – Present (1 year 3 months)**

Candi is a London based digital agency working with a number of high profile clients. Between November 2010 and June 2011 I was based onsite at the Morrisons head office in Bradford to provide local support as the on-site designer for morrison.co.uk producing weekly adverts and developing a new set of brand guidelines. I am now currently based in the London office - brands I have worked with include Dissarono, Which? and Beefeater Grill.

ORCA (Leeds) **June 2007 – November 2010 (3 years 6 months)**

Originally starting out as a designer/front-end developer, I later progressed to a creative management position to ensure a high level of design was consistently produced from a team of 4 whilst still carrying out my role as lead designer and working on a wide variety of conceptual projects.

SKILLS

Photoshop
Fireworks
Illustrator

Dreamweaver
HTML
CSS

Accessibility
Branding & identity
Vector graphics

OUTSIDE DESIGN

Prior to working full time as a designer I was the lead singer of a band for some years and got the chance to go on several tours across UK and Europe and record a CD/LP. After parting ways with the band I still try to keep musically creative through music production and am currently signed to an independent record label and DJ on weekends. Other interests include freehand drawing, film, photography, and visiting exhibitions, galleries and live events.
